## **Best Practices**

As we all continue to do our part to prevent the spread of COVID-19, we ask that you please continue to practice good infection control by:

- Staying home when you are sick;
- Avoiding contact with sick people;
- Covering your mouth and nose with a tissue or your sleeve (not your hands) when coughing or sneezing;
- Washing your hands with soap and water for at least 20 seconds; or, use an alcohol-based hand sanitizer when soap and water are not available;
- Avoiding touching your eyes, nose, and mouth;
- Cleaning and disinfecting frequently touched objects and surfaces;
- Practicing social distancing. Maintain at least six feet of space between yourself and other individuals when out in public; and
- Avoiding close contact with crowds of any size.
- If you must go out in public, wear a face covering.
